<tr>
<td>Composition Learning Outcomes</td>
<td>I completed the part of the project I was responsible for in mid-July.</td>
<td>The project went very smoothly. The training was extremely helpful. I enjoyed collaborating with my colleagues. We have great leadership in the English department. The objectives were very clear which aided in a smooth completion of this project.</td>

**How did your accomplishments and results match with your expectations?**

This project exceeded my expectations. It was great to see everyone collaborating with the same goals in mind and with enthusiasm. This is what makes our department strong. I learned a lot from my colleagues and feel this will make me a better teacher in the fall.

**What have you learned as a result of being involved in this work?**

I have an even better understanding of the department's learning outcomes for exiting students. This will help me to better plan instruction in the future to make sure that my students are prepared when exiting my class.

**If you will continue with this work next semester, describe your upcoming goals.**

I would love to participate in this project again next summer.

**What should the college’s senior leadership know about this work?**

This is a great project to help our department stay on the same page with common goals. This project will continue to strengthen our department as we learn more together in defining our goals for students.
